

Module:

Business Information Systems

Course:

Business Information Systems 2

Professor in charge:

Prof. Dr. Torsten Stein

Lecturer:

Prof. Dr. Torsten Stein

Target Group:

3rd semesters

Scope:

2 semester periods per week

ECTS- Points:

2,5

Workload:

Class Contact:	22,5 h
Grade/nongrade exam:	1,0 h
Preparatory grade/nongrade exam:	19,0 h
Self study/preparatory and follow-up study:	32,5 h
Total:	75,0 h

Learning Outcomes:

Factual Knowledge:	Differentiate planning components for information systems that assists business processes.
Methodic Competence:	Apply methods for data and process modeling. Use database software and process modeling tools.

Contents:

Week	Content	References
	Information Systems Architecture	Lemke, C., Brenner, W., Einführung in die Wirtschaftsinformatik - Band 1: Verstehen des digitalen Zeitalters, Springer Gabler, Berlin-
	- Planning of Extensive Information Systems	

- Data Modeling
 - Process Modeling
 - Object Oriented Models and Systems
- Heidelberg 2015

Teaching Methods:

- Lectures with Discussions, Case Studies, Tool Presentation and Utilization, Exercises, Team Work, instructed autonomous Studies, Test exam.
- Script with Review Questions (Multiple Choice) on the internet.

Examination:

Written Exam

Language:

German 100%

Planned Case Studies:

- Data Modelling (Car Rental)
- Process Modelling (POS-System)
- Object Oriented Modeling (Library)

Miscellaneous:

In order to prepare the exam it is absolutely necessary to participate on the lectures and exercises.
