Why study with us?

Bonn is one of the leading hubs for international organisations worldwide, which puts our study facilities in the vicinity of a great number of UN organisations, NGOs, international schools as well as academic organisations and local and global enterprises. This allows hands-on education with real life, solution-oriented management tools.

Furthermore

- We are a young and dynamic university
- We work in small groups with plenty of opportunities for learning and exchange among peers
- We collaborate with a network of experienced and internationally renowned practitioners and academics from high-ranking institutions
- We located close to Cologne and Bonn: international cities with great cultural diversity

GROUP AND INDIVIDUAL COACHING

MASTER THESIS

Objectives & Target Group

The executive MBA programme Corporate Social Responsibility (CSR) and Non-Governmental Organization (NGO) Management offers an interdisciplinary and in-depth study of two vibrant and expanding fields. It is a joint venture of the Department of Management Sciences in Rheinbach and the International Center for Sustainable Development (IZNE) at HBRS in Sankt Augustin.

While sharpening their profiles regarding management and leadership positions in NGOs, this programme also provides its students with a specialized focus on CSR relevant topics.

The MBA programme invites people from various countries of origin and diverse professional backgrounds who want to enhance their management skills, while participating in an academic, interdisciplinary and intercultural exchange.

The programme addresses itself to professionals who are planning to enter management positions in Non-Governmental Organizations (NGOs) as well as professionals with different backgrounds who are now looking for advancements in the area of Corporate Social Responsibility (CSR).

We want our graduates

- To take part in tackling global challenges
- To be comfortable using state-of-the-art management methods to implement corporate social responsibility effectively and efficiently
- To establish an interdisciplinary and interinstitutional network of national and international experts
- To develop sustainable economic systems in a globalized world
- To not just be excellent in what they do, but to develop real passion for their work
