Rosetta Stone
MOBILE APPS
(Android/iOS)

We hope that you had a good start to your online language course with Rosetta Stone. After completing the onboarding process and launching the program for the first time from your computer, you will be able to sign into Rosetta Stone mobile app from your mobile device. Please note that the choice of the app you should download will depend on which of the two pathways of the program you are currently registered with:

If you currently work with Foundations

Please download the **Learn Languages with Rosetta Stone app** from the Apple iTunes® app store or from Google Play™ store.

It's the app with the blue stone on a yellow background.

Sign in with the following:
• your username (i.e. your e-mail address)
• your password
• your namespace /online portal:

hbz

Please read the instructions on our support web site for more information:
• Android app
• Apple iOS app

If you currently work with Fluency Builder

Please download the **Rosetta Stone**

Fluency Builder app from the Apple iTunes app store or from Google Play Store

It's the app with the blue stone on a white background.

Sign in with your username (i.e. your e-mail address) and your password.

Please note that you must have launched the program from your computer before you can use this mobile app.

Please read the instructions on our support web site for more information:
• Android app
• Apple iOS app
