Sustainable Labor Migration – reading & public panel discussion

March 23, 2022, 7pm – 9pm (CET)
Hochschule Bonn-Rhein-Sieg, campus Sankt Augustin, audimax

From December 2020 to April 2022, the Bonn-Rhein-Sieg University of Applied Sciences is implementing the research project ‘sustainable and socially acceptable labour migration management’. This project is supported by the Global Program Migration & Diaspora (PMD), German Society for International Cooperation (GIZ) GmbH. In three country studies covering transnational migration partnerships in Georgia, Kosovo and Vietnam, the research project examines the perception of ‘sustainable labor migration’ among the actors involved. The panel discussion will highlight the possibilities and limits of a potential-oriented design of labor migration from a practical and scientific perspective.
